

TIP Double Planter Benches provide function and beauty for exterior and interior built environments. Designed for by Bones and All for the **Trade Institute of Pittsburgh**, these durable benches are produced by the organization to support its mission and training programs.

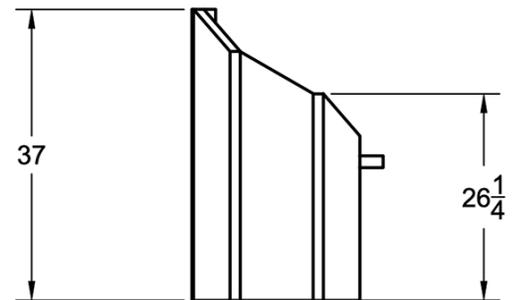

The 72" wide seat features two large planters at both ends, wrapped by distinctive, graduated planked sides. Each planter is designed to hold a standard 5-gallon nursery pot insert, appropriate for a variety of plants and small shrubs.

Benches are made-to-order using sustainable wood and finish options, including FSC-certified wood and low-VOC finishes for interior and exterior applications.

ABOUT THE PRODUCER

The **Trade Institute of Pittsburgh** is a non-profit organization and vocational training provider dedicated to empowering men and women with significant barriers to employment through skill-building and career opportunities. TIP's 10-week tuition-free training program includes fundamental training in masonry and carpentry, preparing students for work in a variety of trades or trade-related careers. Today TIP offers benches for the built environment to support the organization's mission and training programs.

SUSTAINABILITY INFORMATION

Contribution to **LEED V4.1** credits:

Interior Environmental Quality | Materials & Resources

Contribution to **WELL** certification:

Materials | X06 VOC Restrictions, X07 Materials Transparency

Mind | M02 Nature and Place

Meets sustainably **Monmade** Dimensions

- Production benefits a non-profit vocational training organization dedicated to providing opportunities for individuals reentering society following incarceration, chronically underemployed, struggling with addiction, and/or from underserved communities
- Protecting human health by using necessary protective gear for personal safety, and properly disposing of any harmful materials
- Production facility operates in an over 60-year-old repurposed building located in an LMI area
