

Jessica Alpern Brown's inherently sustainable mindset informs her newest **Light Lines Collection**. The colorful creations maximize material use and minimize waste by using cut-offs from her other products. The lights also utilize plastic cups reclaimed from catering companies for their center structure.

The collection offers a variety of shapes, sizes, and color options, from the **Table Lamp** and small designs to bold chandelier-inspired fixtures.

This pendant light is available in a range of **single colors and partial-to-full color spectrum options** (shown here in Frosted Wisteria with Black Hardware & Cord).

ACRYLIC COLOR SPECTRUM: TRANSPARENT GLOSS FINISH

ACRYLIC COLOR SPECTRUM: OPAQUE GLOSS FINISH

ACRYLIC COLOR SPECTRUM: FROSTED (SATIN) FINISH

ACRYLIC COLOR SPECTRUM: MIRRORED FINISH

**ABOUT THE PRODUCER**

A multidisciplinary artist, **Jessica Alpern Brown** now offers fine art-inspired design products for commercial and residential spaces. With over 20 years of design and fabrication experience, Jessica works with a variety of materials from paper, acrylic, and metal to found objects, organic matter, and non-toxic resin. Her inherently sustainable mindset informs her **Light Lines Collection**. The colorful creations maximize material use and minimize waste by using cut-offs from her other products, like **Contour Discs** from our **Monmade x CDCP Collection**.

SUSTAINABILITY INFORMATION

Meets sustainably **Monmade Dimensions**

- Woman- and veteran-owned business.
- Materials sourced from Ohio, Pennsylvania, and Utah.
- Laser-cut designs in acrylic require no framing or adhesives for assembly. Light Lines products utilize plastic cups reclaimed from catering companies.
- Lighting products are either UL-Certified or use UL-listed components. Producer uses domestic **third-party manufacturing** for the UL Certification and assembly of her lights, including manufacturing support partners in **Derry, PA and Denver, CO**.
- Producer offsets her studio's energy usage with a wind power generator and rainwater collection.
- Producer's primary manufacturing facility is a shared maker space, **Prothaven**, which is in proximity to producer's studio, located within an LMI area, and currently working on increasing environmental initiatives.
