

Color Pops Double Wall Hook in **Terracotta** with coordinating Snap Caps

Designed to mix and match, **Safran Everyday's Color Pops Wall Hooks** boast whimsical, modern shapes and colors. The **Double Wall Hook** offers durable and eye-catching storage solutions for office and home organization.

The hooks' "fold-up" design minimizes material waste and eliminates welding during production. Like Safran Everyday's overall product collection, Color Pops Wall Hooks are made from sustainable, low-VOC powder-coated steel.

Color Pops Wall Hooks are available in two sizes, Multi and **Double Wall Hook (shown here)** options. **Snap Caps** may be coordinated to planter color or in contrasting single- or mix- hues for added visual interest. Wall hooks are available in Terracotta, Pear, Grapefruit, and Cornflower. Snap Cap colors also include Citrus. Additional color options may be available by special order.

Pear

Grapefruit

Cornflower

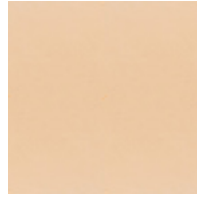

**MULTI WALL HOOK COLOR OPTIONS:**

## ABOUT THE PRODUCER

**Safran Everyday** was created out of artist Maia Leppo's desire to provide simple, beautiful, functional goods. Inspired by botanicals and architecture, Maia brings her fresh sense of design to practical wares like planters and wall hooks. Designed to mix and match, Safran Everyday's suite of durable storage solutions boast whimsical, modern shapes and colors. Wall hooks come ready-to-hang and offer durable and eye-catching storage solutions for office and home organization.

## SUSTAINABILITY INFORMATION

Meets sustainably **Monmade** Dimensions

- Woman-owned creative business with a studio at the **Brew House**, a non-profit art center on Pittsburgh's South Side. The Brew House was once a former brewery and was renovated within the last ten years, offering artist studios, lofts, and a gallery.
- Producer's primary production partners are within 300 miles of her studio, including a steel producer in Honeybrook, PA (268 miles) and a powder-coater in **Freedom, PA (50 miles)**.
- By using cold processes (bolts, rivets, or fasteners) instead of welding for production, producer helps reduce materials or other manufacturing processes harmful to human health and the environment.
- Low-VOC powder coated finish.
