Mediary System, 4-Level Module

Mediary System, **4-Level Wall Mounted Module with 4-Shelves,** 42-3/8"H x 11-3/4"D x 42'W

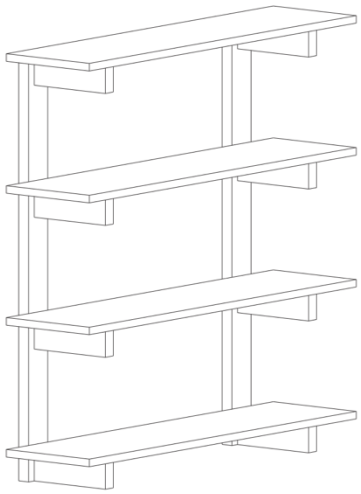
The **4-Level Module** serves as a vertical backbone of the **Bones and All Mediary System,** offering partial height and adaptable functionality for residential and light commercial interiors. Crafted from solid wood and designed to align with standard wall studs, each upright supports four evenly spaced straight shelves at 12-3/8" apart.

Whether wall-mounted or free-standing with optional stretchers, the 4-Level Module accommodates a variety of configurations—from **half-height bookcases and retail displays** to dynamic workstation setups. Clean lines, exposed joinery, and refined detailing emphasize the system's material integrity and modular logic.

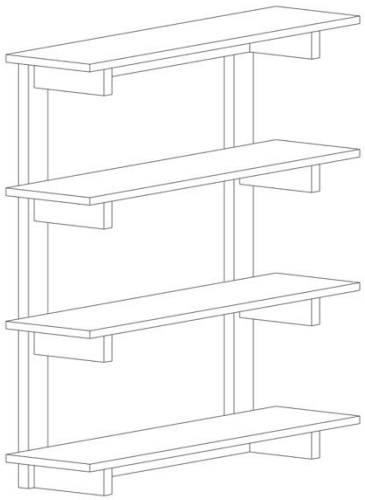
Use with straight shelves or pair with additional modules, including angled library shelf displays, or desk modules to create a unique and dynamic configuration.

SUGGESTED CONFIGURATIONS

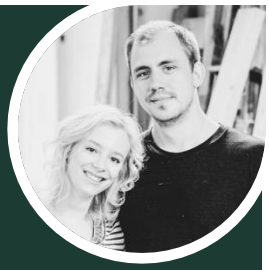
Explore a range of layout options—from minimal shelving setups to integrated angled shelves—highlighting the 4-Level Module's versatility within the Mediary System.



Mediary System, **4-Level Wall Mounted Module with 4-Shelves,** 42-3/8"H x 11-3/4"D x 42'W



Mediary System, **4-Level Free Standing Module with 4-Shelves**, 42-3/8"H x 11-3/4"D x 42'W



ABOUT THE PRODUCER

Bones and All is a multidisciplinary creative studio specializing in concept, design, and fabrication for residential, hospitality, and retail environments. Founded in 2012 by Zak Kruszynski and Kelsey Henson, the studio offers a wide range of capabilities, including an in-house woodshop staffed by professional craftspeople and designers. With a network of partners skilled in diverse materials and techniques, Bones and All delivers projects of all scales from concept through completion. Their **Green Leap** collection introduces a new line of modular furniture—functional, adaptable, and crafted for contemporary interiors with a focus on material integrity and timeless design.

SUSTAINABILITY INFORMATION

Meets sustainably**Monmade** Dimensions

- All components are designed and built in-house at Bones and All's Pittsburgh woodshop, s**upporting local fabrication and skilled regional craft.**
- Using **responsibly sourced hardwoods**, with parts dimensioned for efficiency to reflect thoughtful material stewardship.
- Modular furniture encourages **product longevity**, allowing users to adapt or expand their setup as needs evolve.
- Units are engineered to align with standard stud spacing, **simplifying installation and minimizing additional materials or labor.**
- Each piece is **finished with low-VOC**, plant-based oils like Rubio Monocoat, prioritizing both environmental health and natural finish quality.
