Arc Wall Planter, Crest

Arc Wall Planter in **Crest and Standard Size, Gloss Orange**

Arc Wall Planter in **Crest and Standard Size, Gloss Orange (detail)**

Bright, bold, and built for impact, the **Arc Wall Planter** by Janet Watkins Ceramics brings sculptural charm and functional beauty to interior spaces. This version features Janet's signature **Crest** design, with carved organic lines and playful circular impressions that evoke topography and movement.

Each piece is hand-built with a 0.25" thick clay wall and finished in a selection of distinctive glazes, including **Gloss Orange, Burnished Matte Blue, and other artist-selected finishes** that add depth and individuality.

The Arc Planter is available in two sizes: **Standard (23"W x 10.25"H x 5"D)** and **Large (31"W x 10.75"H x 6"D)**—both with a **7" deep** planting trough to accommodate houseplants, trailing vines, or dried arrangements. Integrated keyhole mounts, spaced 13.5" apart, ensure secure wall installation. Whether displayed on its own or as part of a collection, this planter transforms vertical surfaces into vibrant, living art. Designed for indoor use.

ABOUT THE PRODUCER

A self-taught artist and ceramicist, **Janet Watkins** creates expressive, hand-built ceramics that celebrate organic form and playful character. Known for her whimsical Pothead Planters featured in several Monmade projects, Janet expands her sculptural work through **Green Leap** with a new series of large wall planters. Designed to stand alone or in grouped arrangements, these planters bring functional artistry to interior design—blending utility with her signature sense of form. Guided by intuition and shaped by clay, Janet's practice has grown into a diverse line of ceramics for the home and garden, each piece reflecting her evolving journey and joyful "second act" as a ceramicist.

SUSTAINABILITY INFORMATION

Meets sustainably**Monmade** Dimensions

- **Woman- and Black-owned** creative business based in Pittsburgh, PA, working from the **Union Project,** a community ceramics studio in the city's East End.
- **Sustainable small-batch production –** All works are hand-built in limited quantities, with a focus on thoughtful design, durable construction, and reduced material waste.
- **Ceramic planters designed to support biophilic interiors**– Wall-mounted planters like the Crest Wall Planter integrate natural greenery into indoor environments, supporting wellness, connection, and sustainable design in the built environment.
- **Artistic practice grounded in community and connection –** Each piece reflects a personal encounter and is shaped by Janet's intuitive design process, bringing character, creativity, and care into residential and commercial spaces.
