Linea Credenza

Linea Credenza, **White Oak**

Orkis Woodwork's Linea Credenza blends sculptural form with everyday function. Crafted entirely from solid wood, its clean lines and warm presence make it a versatile anchor for any space. Two cabinet doors conceal generous interior storage, while an open shelf with softly curved edges adds visual interest and space for display or easy-access items.

At just under fives feet long, the credenza suits home offices, studios, or compact living areas. Each piece is made to order using locally sourced hardwood and finished with to highlight the wood's grain. A **twin, mirror-image version is also available**—pair the two for expanded storage in larger spaces.

ABOUT THE PRODUCER

Orkis Woodwork creates well-made furniture and cabinetry that honors tradition while embracing modern simplicity. Founder Steve Orkis draws from a family legacy of woodworking, channeling his passion into lasting designs made from solid wood. Through Monmade's **Green Leap** program, he developed the Linea Credenza from an initial concept into a refined, repeatable product—improving construction methods, increasing material efficiency, and highlighting the natural character of hardwood. The result reflects his deep respect for craft, materials, and the spaces his work is built to serve.

SUSTAINABILITY INFORMATION

Meets sustainably**Monmade** Dimensions

- Small studio in Sewickley, PA, where founder Steve Orkis continues a family tradition of **hands-on craftsmanship.**
- Committed to sustainable practices, Steve uses **responsibly harvested and regionally sourced hardwoods** in all furniture pieces.
- Designs are guided by the natural qualities of the wood, minimizing waste and promoting material efficiency in the shop.
- **Non-toxic, no-VOC stains and finsihes** support healthier indoor air quality.
- Built one piece at a time, Orkis Woodwork's furniture reflects a commitment to quality and enduring design.
